

Artephiletic workshop – The Hell

List of basic terms

Artephiletic concept: content unit which a child is able to manage (name, create, perform, feel, share with others ...).

Basic types of concepts:

Thematic: what is it? What is it about? What can I name?

Emotional: „what do I experience“ „what do I feel“

Empathic: „what can I share“ (every child can have different emotions)

Constructive: „how to show it“, „how to perform it“, „how to do it“

Part 1:

„ice- breaker“ – try to be St. Nikola, Devil of Angel for a while – children try to identify with them and express them by moving their body in the same way, at the end they reveal which character they were copying

Part 2: “THE HELL IS A WARM PLACE“

Thematic: ČERTOVSKÁ POSTAVA – POHYB – POHÁDKA – DOBRO – ZLO

Constructive: - draw the head of a devil on a piece of paper, all parts of the head (eyes, nose, hair, ...)

– cut it out with scissors, put it on a blanket in the shape of a circle (if possible red and yellow symbolising the colour of fire) – take pieces of cloths/ colourful pieces of paper/newspaper, buttons and create the body of your devil

- reflexion: compare your devil with the others, which one is sad, happy, etc.

Emotional: - talk about your feeling when creating, what was difficult, what did you manage etc.

Empathic: - talk together about the feelings of FEAR and HAPPINES, who is afraid of devils, why? Where can you meet devils? What can they do? What can children do?
